**Owner: Brennan Sandefer**

**THANK YOU FOR YOUR TIME!**

Dear City of Bartlett and the wonderful people serving it,

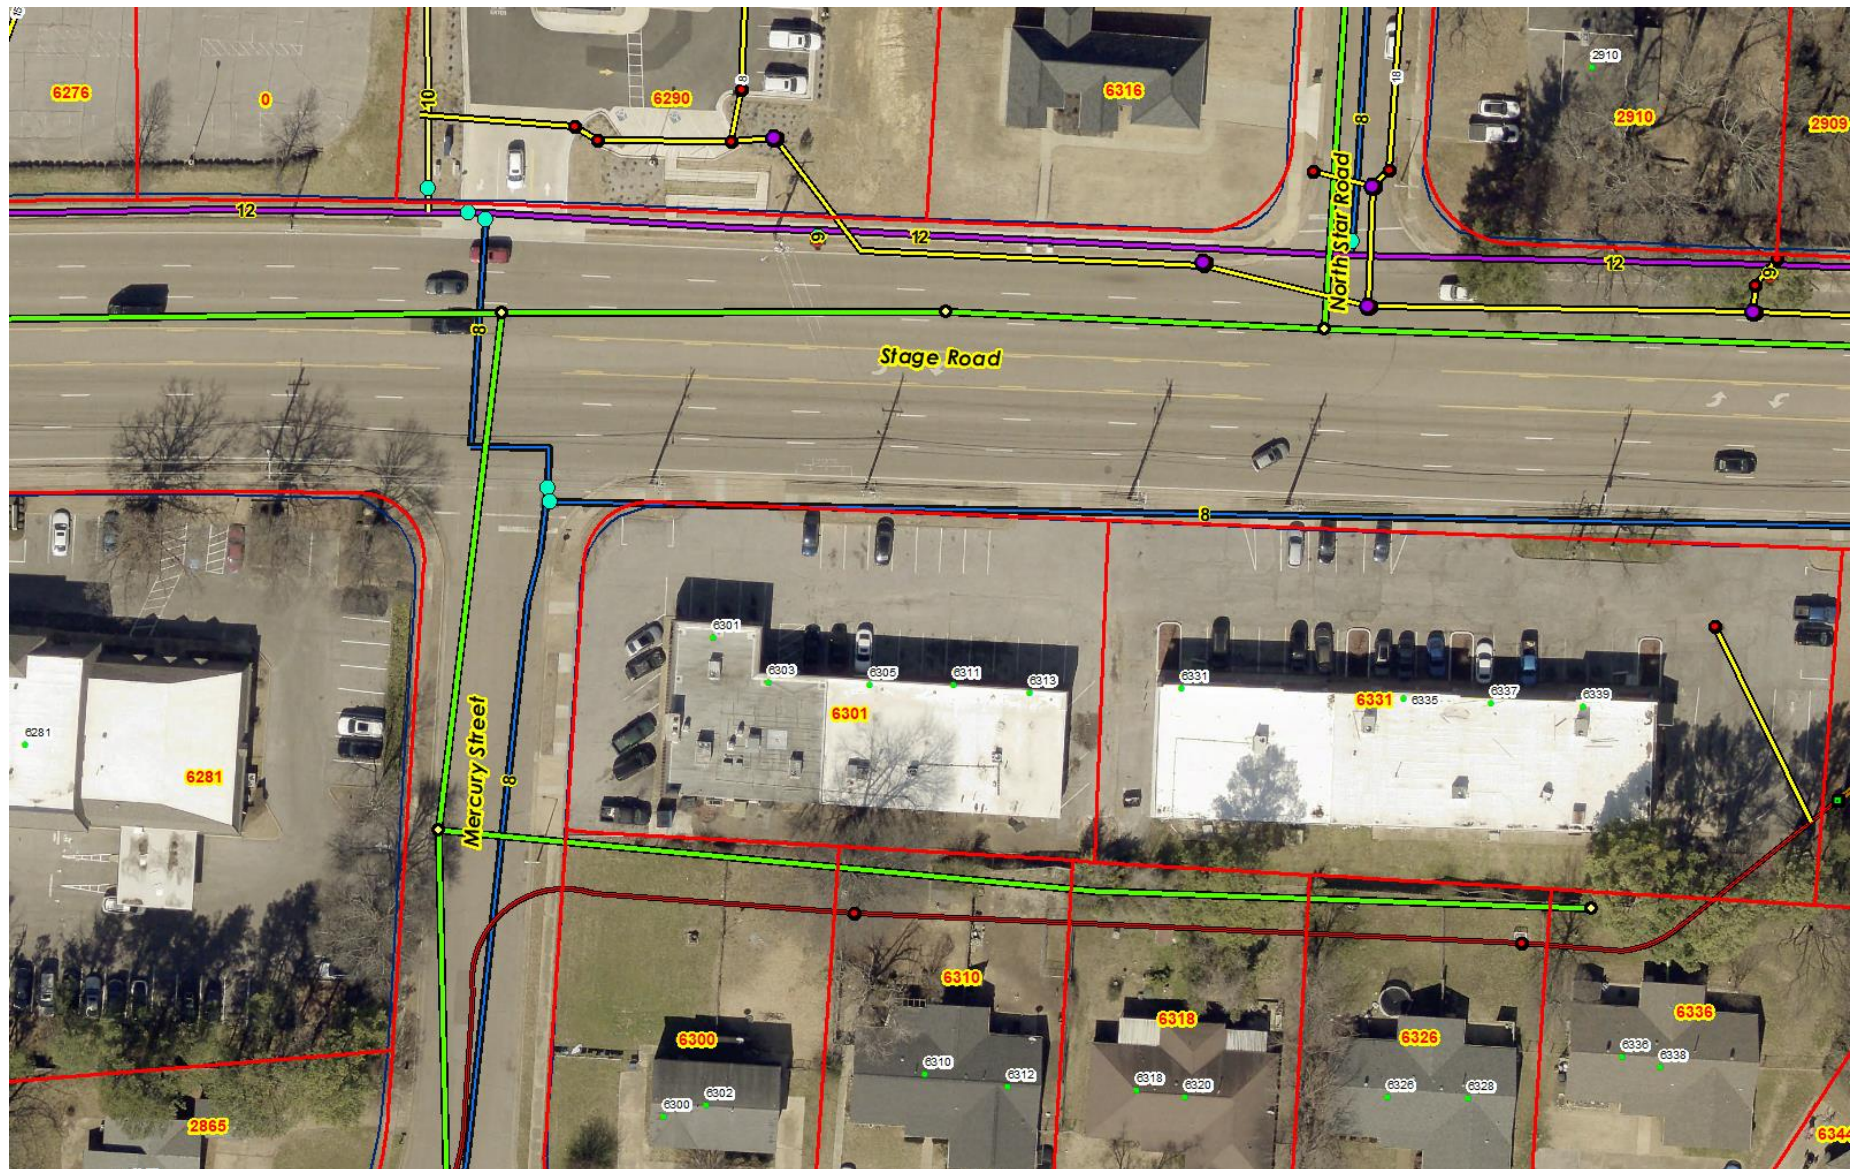

My name is Brennan Sandefer, and I own 901 Deals! My business elevator pitch is: I buy, sell, and trade sneakers, fashion, Pokémon cards, sports cards, and various other collectibles to fundraise for the children of St. Jude and make some money for myself and my family along the way! It started as a side gig while I was attending the University of Memphis where I was an executive member of the St. Jude-sanctioned organization, "Up 'Til Dawn." I was already fundraising for St. Jude for 2 years when I realized I needed to change up my approach and ran out of people to ask for money from, and that is when I started actually flipping stuff I knew had resale value to do just that!

I thoroughly love St. Jude and what they stand for, and no matter what I do in life, I will continue to give back to them. What I am doing right now is working, and with your help, I expect it will work even better. I mostly work with new clothing, new shoes, and collectibles. Still, I do regularly receive used goods that I take in for trade or buy from people by paying more than other resale businesses, and I greet them with a better smile and a more enjoyable experience. I will not accept just anything, and I clean up everything that has been used. I will not accept anything that looks gross or anything that has obviously been worn a lot. I also will not dabble in markets that I do not enjoy, or that I do not participate in myself. I am not, nor do I wish to be, a pawn shop. Nothing against pawn shops, but that just is not my vibe, nor is it my business's vibe.

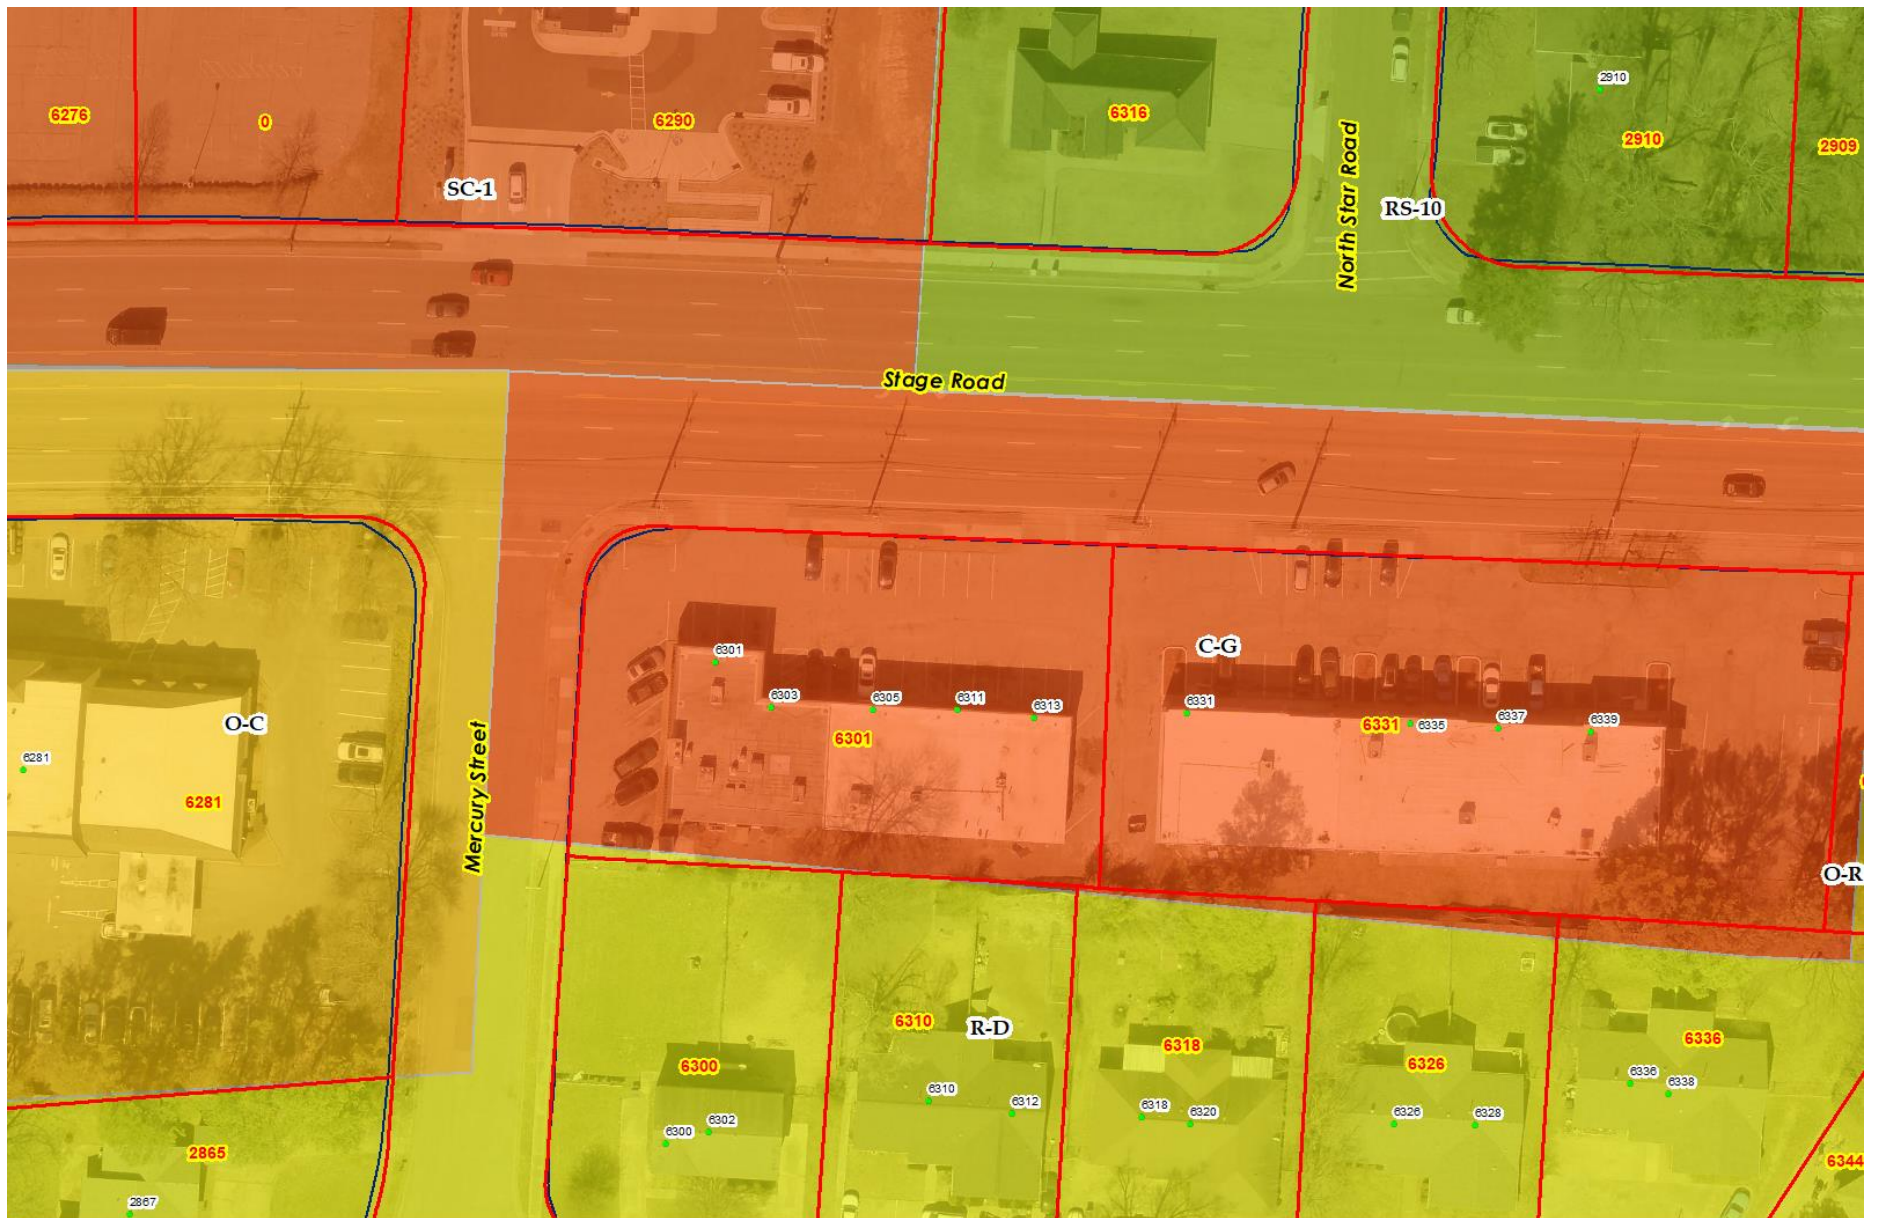

If you approve of our used permit, I can personally promise that when you enter 901 Deals, it will not feel like a Plato's Closet or a pawn shop or a used car lot. Rather, an inviting space with cool deals for any sort of avid collector or someone just coming to browse a plethora of cool products! There will be a specific used section of the store, and if I did not clarify it, you wouldn't even know it was all used! We will still prioritize collectibles and new products above all else, and there really will be something for everybody here! I appreciate your time and hope that

I have conveyed my business properly and that you love what you can imagine! Approved or not currently, I am beyond excited and humbled by getting to be a Bartlett Business Owner and I hope to see you in the shop soon!

**Master Plan**

**2. The Ramble on Summer, 7157 Summer Avenue (Mason Jambon, Developer)**

**INTRODUCTION:** Director Taylor introduced the application for Mason Jambon, with Geaux Breauxs LLC, who is requesting Planning Commission approval of a Master Plan for The Ramble on Summer Residential Mixed Use Development. The subject property is located at 7157 Highway 70. The subject property has split zoning with the western 200 feet from the Highway 70 frontage within the "R-TH"

Townhouse Residential Zoning District and the eastern remainder within the “RS-10” Single Family Residential Zoning District.

**BACKGROUND:** On September 10, 2024, the Board of Mayor and Aldermen approved a Special Use Permit to allow for the submittal of development plans for a Residential Mixed Use Development on the 10.16-acre subject property located at 7157 Highway 70.

**DISCUSSION:** The specific request by the applicant is for Master Plan approval to subdivide the 10.16 acres of land into a 36-lot residential mixed use subdivision with 35 residential dwelling units, outdoor recreation/entertainment venue, restaurant, and bakery/retail shop. The development will be constructed in three phases. The proposed phasing of the development will be as follows:

|         | Area | Use                                                    | Acreage | Lots | Dwelling Units |
|---------|------|--------------------------------------------------------|---------|------|----------------|
| Phase 1 | A    | Restaurant with Outdoor Recreation/Entertainment Venue | 2.54    | 1    | -              |
| Phase 2 | A    | Bakery/Retail Shop                                     | 2.54    | 1    | -              |
| Phase 3 | B    | Single Family Residential                              | 5.08    | 35   | 35             |

The proposed restaurant will be 6,250 square feet with a 1,675 square feet smokehouse. The proposed outdoor entertainment venue seating will be 14,810 square feet. The proposed bakery/retail shop will be around 4,800 square feet. The proposed single family lots will be around 4,000 square feet. The primary access to the development will be from the existing driveway aprons along the Highway 70 frontage. The applicant is proposing a secondary driveway that would provide access to Yale Road. Additionally, the proposed development will utilize an existing storm-water detention pond, outdoor recreation amenities that will blend into the existing trees on site, a 60 foot wide greenbelt, a twenty foot wide landscape buffer along the Highway 70 frontage, and a twenty foot wide landscape buffer along the north property line.

**Recommendation:** Approval with conditions.

**Engineering Conditions:**

**General:**

1. A Subdivision contract will be required and will be prepared by Engineering and submitted to the developer/engineer for review to cover the fees to be paid to the City of Bartlett.
2. Applicant/ Engineer shall provide a **digital set of drawing** files showing the sanitary sewer lines, drainage lines, lot lines and all improvements in AutoCAD format to [dhubbard@cityofbartlett.org](mailto:dhubbard@cityofbartlett.org) and [jhome@cityofbartlett.org](mailto:jhome@cityofbartlett.org) for use in the preparation of the Water Design Plan. This plan will be coordinated with the site design engineer to resolve any conflicts.
3. A SWPPP permit will be required and shall be submitted to TDEC and to the City of Bartlett Engineering office. Permit numbers will be recorded on each page of the erosion control plan.
4. All new utilities shall be underground.
5. Plat is required to verify location of property lines and show that full ROW dedication of 57' has been granted.
6. Any work within or affecting the Hwy 70 ROW, including existing driveway entrances, shall be submitted to TDOT for approval. A copy of the TDOT permit shall be submitted to the City of Bartlett.
7. There is an existing 8" water line on Hwy 70, which may need to be looped through the new development and reconnected near the intersection of Yale and Santa Valley. In addition, a future 12" waterline will need to be installed across the entire frontage on Hwy 70. Certified as-builts will be required on the public water.
8. Since this project is located in the Fletcher Creek Sewer Basin approval is dependent on developer receiving written approval from the City of Memphis for new sewer connection.
9. The future road extending eastward out of phase 3 appears to go through the existing detention basin, please revise the proposed location of the road, to minimize any impact on the detention basin.
10. There is Traffic Signal Fiber in the northern ROW of Yale Rd. Please add a note to the Site Plan and any sheet that requires demo, excavation, grading, or boring near this area stating, "There is Traffic Signal Fiber in the area, please contact the City of Bartlett Engineering Department (901-385-6499) before any construction begins."
11. Correct all markups.

**Final Plat:**

12. Plat is required.

**Sanitary Sewer Plan:**

13. Since this project is located in the Fletcher Creek Sewer Basin the detail plan of the private underground sewer storage tank and pump station, will require final approval by City of Memphis.
14. Sewer lines shall be at 0.4% minimum slope.
15. Tracer wire must be installed on all sewer lines, including services.
16. If there are any existing sewer taps, please show on sewer plan.
17. More information will be required for phase 3.
18. Certified as-builts will be required on the public sewer.

**Grading & Drainage Plan:**

19. Offsite drainage shall not exceed 1.5 acres.
20. Show pre/post Q25 peak flow to outfall(s).
21. More information will be required for phase 3.
22. Certified as-builts will be required on the public drainage.

**Erosion Control Plan Stage 1, Stage 2 and Stage 3:**

23. The engineer shall provide a copy of the SWPPP (Storm Water Pollution Prevention Plan) that has been or will be submitted to TDEC (Tennessee Department of Conservation).
24. Prior to any work being started, an NOC (Notice of Coverage) from TDEC must be received and a copy submitted to the City of Bartlett.
25. During construction, extra care will be needed to ensure that silt is not tracked into Hwy 70 or Yale Rd.
26. Show the Flowline and Top of Bank for the southern stream along with 30' and 60' buffers; and provide the average buffer for the site.
27. Please verify your 100-year flood limit and show BFE graphically.
28. Please show the TDEC classification of the receiving stream and the contributing drainage area to outfall(s).
29. An ARAP Permit may be required by TDEC for the future stream crossing.

**Traffic:**

30. If both existing entrances along Hwy 70 are proven to be within the Ramble property limits, the southern entrance along Hwy 70 shall be closed and the northern entrance will require striping changes to allow deceleration and storage for the southbound left turn from Hwy 70 into the property. Striping changes shall be submitted to TDOT for approval and a copy of the approval shall be provided to the City of Bartlett.
31. The dumpster location is blocking the future fire department access gate on some sheets and not others. Please revise.

32. If the future entrance from Yale cannot be revised in a way that keeps it on City of Bartlett property without negatively impacting the existing detention area, it should be aligned with Santa Valley.

**Planning Comments:**

1. The applicant is working to purchase the adjacent vacant 9-acre property located south of the subject property for ancillary parking, enhanced landscape buffering, and a secondary driveway that provides access to Yale Road and aligns with the Yale at Santa Valley intersection. However, obtaining the vacant 9-acre property has become problematic due to underlying clean title encumbrances, so the applicant is currently attempting to work with the City of Bartlett on a driveway alignment to Yale Road that would cut across city owned property to access Yale Road until clear title for the vacant 9-acre property can be obtained.

**Planning Conditions:**

1. The applicant shall utilize sheets 2 and 3 as the Outline Plan. The Outline Plan shall be recorded with the Shelby County Register of Deeds.
2. The applicant shall identify the specific Landscape Plate locations on the Outline Plan.
3. The proposed gravel parking will be addressed in future Site Plan application approvals for Phase 1, but the proposed parking lot surface will need to be asphalt or concrete.
4. The required parking totals will be addressed in future Site Plan application approvals for Phase 1 and 2.
5. The applicant must obtain subdivision Construction Plan and Final Plan approval for each phase of the development.
6. The applicant must attach the Outline Plan with each Final Plat for every phase recording.
7. After completing the subdivision applications, the applicant must obtain Site Plan application approvals from the Planning Commission and the Design Review Commission for Phases 1 and 2.
8. The common open space amenities and landscaping of the Phase 3 single family residential will need to obtain Site Plan approval from the Design Review Commission.
9. The landscape plan will be approved with future Site Plan applications to the Design Review Commission for Phases 1, 2, and 3.
10. The applicant shall be present at the meetings in order to make decisions to any changes that may be suggested by the Planning Commission.

Chairman Kaiser asked if the applicant is present.

*David Bray, the Bray Firm, stepped forward.*

Mr. Bray stated that he is in agreement with comments and conditions of staff other than Engineering Condition #30. He would like it to say, "If both existing entrances along Hwy 70 are proven to be within the Ramble property limits, the disposition of the southern entrance along Hwy 70 shall be determined by TDOT and Bartlett Engineering staff. The northern entrance will require striping changes to allow deceleration and storage for the southbound left turn from Hwy 70 into the property. Striping changes shall be submitted to TDOT for approval and a copy of the approval shall be provided to the City of Bartlett."

Senior Planner Sam Harris stated that staff is fine with that condition change.

***Jim Lamb made a motion to approve the Master Plan for the Ramble on Summer with comments and conditions in the staff report, and the amended Engineering Condition #30 stating, "If both existing entrances along Hwy 70 are proven to be within the Ramble property limits, the location of the southern entrance along Hwy 70 shall be determined by TDOT and Bartlett Engineering staff. The northern entrance will require striping changes to allow deceleration and storage for the southbound left turn from Hwy 70 into the property. Striping changes shall be submitted to TDOT for approval and a copy of the approval shall be provided to the City of Bartlett." James Reid seconded the motion. Roll Call Vote: All members present voted Yes. Motion carries.***

#### **4. Union Depot 1<sup>st</sup> Addition Phase 1, 7024 Highway 64 (Roy Lamica, EFI Global)**

**INTRODUCTION:** Director Taylor introduced the application for Roy Lamica, with EFI Global, who is requesting Planning Commission approval of a Construction Plan for Phase 1 of the Union Depot First Addition Residential Mixed Use Development. The subject property is located at the northeast corner of Highway 70 & Highway 64. The subject property is within the "SC-1" Planned Unit Commercial Zoning District.

**BACKGROUND:** On July 22, 2025, the Board of Mayor and Aldermen approved a Special Use Permit to allow for the submittal of development plans for a Residential Mixed Use Development on the 34.2-acre subject property located at the northeast corner of Highway 70 and Highway 64. On May 4, 2026, the Planning Commission approved a Master Plan to subdivide the 34.2 acres of land into a 32-lot residential mixed use subdivision with 387 residential dwelling units. The development will be constructed in five phases. The approved phasing of the development is as follows:

| District | Use | Acreage | Lots | Dwelling Units |

**DISCUSSION:** The specific request by the applicant is for Construction Plan approval for Phase 1 of the Union Depot First Addition Residential Mixed Use Development. The project scope for Phase 1 includes the construction of Union Depot Drive and the extension of utilities along Union Depot Drive to allow for services to extend for the future phases of Union Depot First Addition Residential Mixed Use Development. The construction plans for Phase 1 of the development include: existing conditions, Union Depot Drive plan and profile, Highway 64 curb plan and profile, signing and marking plan, Highway 64 and 70 intersection improvements and grading, grading and drainage plan, erosion control plans, sanitary sewer plan, box culvert details, and a preliminary final plat. Access to the development will be from the existing traffic light at Highway 70 and Union Depot Drive and a new traffic light to be installed at Highway 64 and Union Depot Drive which will align with Van Der Veer Drive.

**Recommendation:** Approval with conditions.

### **Engineering Conditions:**

#### **General:**

1. A Subdivision Contract will be required to cover all associated fees and bond.
2. All new utilities shall be underground.
3. Streetlighting for US 64 and US 70 shall be coordinated by Developer with Memphis and TDOT to ensure adequate lighting is provided.
4. If required, Applicant/ Engineer shall provide a **digital set of drawing** files showing the sanitary sewer lines, drainage lines, lot lines and all improvements in AutoCAD format to [dhubbard@cityofbartlett.org](mailto:dhubbard@cityofbartlett.org) and [jhome@cityofbartlett.org](mailto:jhome@cityofbartlett.org) for use in the preparation of the Water Design Plan. This plan will be coordinated with the site design engineer to resolve any conflicts.

5. A SWPPP, TDEC General Construction Permit will be required and shall be submitted to the TDEC and the City of Bartlett Engineering office. Permit numbers will be recorded on each page of the erosion control plan.
6. Correct all markups.

**Plat:**

7. Subdivision monuments shall be shown in accordance with the subdivision regulation.
8. Please show stream buffer.

**Stormwater:**

9. An updated HECRAS hydraulic drainage study shall be submitted with the Phase 2 submittal to the Engineering Department for review of the existing blue line stream conditions and Flood Plain, and to ensure that adequate detention is provided. Revised detention calculations will be required at that time.
10. In accordance with the Bartlett Stormwater Ordinance, the Blue line stream passing through the Site to the northeast requires a 90' buffer (160 acres) on both sides of the stream. This has been reduced, as outlined below, based on the results of the preliminary HECRAS Study. Proposed Buildings shall be constructed outside of the HECRAS 100 Year Flood Elevation and least 10' off of a 30' Minimum Stream Buffer that is provided over the entire site. Allowance for a narrower stream buffer in certain areas may be considered but only as an exception, not as the rule, and only in areas where buildings are not proposed.
11. This Site may require a Sedimentation basin, per TDEC requirements, during construction.
12. Minimum finished floor elevations shall be set for lots with close proximity to the stream, as follows:
  - a. For Residential homes, Town homes, and Apartments, Finished Floor Elevations shall be 30" above the 100 Year Flood Plain. This is in accordance with the Bartlett Zoning Ordinance - Page A-VI-133 Paragraph B1.
  - b. For Non-residential construction such as Commercial and Mixed Use, (where commercial is on the first floor.) Finished Floor Elevations shall be 18" above the 100 Year Flood Plain. This is in accordance with the Bartlett Zoning Ordinance - Page A-VI-134 Paragraph 2.
13. An ARAP Permit may be required by TDEC where the proposed road and drainage outfalls necessitate stream modifications.

14. Please provide a (Drainage Narrative) written summary of the existing site drainage patterns (including pre-construction Q25 to each outfall) and how grading will or will not impact it. The Drainage Narrative should include a discussion on impact to adjacent properties, how storm water from the new construction will drain (including post-construction Q25 to each outfall), discuss any planned detention, and show the capacity of the (existing) receiving drainage pipe under Hwy 64.

**Erosion Control Plan Stage 1, Stage 2 and Stage 3:**

15. During construction, extra care will be needed to ensure that silt is not tracked into Hwy 70 or Hwy 64.
16. Show and label Flowline, Top of Bank, and Stream Buffers for the stream running through the site.
17. Please show the TDEC classification of the receiving stream and the contributing drainage area to outfall(s).

**Sewer**

18. Sewer connections on existing mains shall show size and capacity of downstream gravity lines for accurate capacity calculations within lines. Sewer design shall meet the requirements of both Bartlett and Memphis or provide alternatives acceptable to service site adequately.
19. Hydraulic sewer calculations should be sent to the City of Memphis to receive a letter of availability. A copy of this letter should be sent to the City of Bartlett Engineering Department.
20. Regarding the existing 10" sewer line on the property, the Developer may have to remediate/repair/replace sections of this sewer line to accommodate the proposed sewer flows from the development.

**Water**

21. The Developer shall provide building material and construction types to Fire Marshall so an accurate determination of Fire Flow requirements can be made.
22. Depending on finished floor elevations and number of stories, fire flows may be challenging on this site. A 12" extension may be needed through the site as well, connecting the existing 12" on US 70 to the existing 12" on US 64. Because of this:
- The Developer may have to bore across HWY 70 for water extension. A TDOT permit will be required.

- The Developer may have to bore across HWY 64 for water extension. A TDOT permit will be required and possible lane closure. (Water main is located in middle of sidewalk).
  - The Developer may have to extend 12" water across portions HWY 64 frontage.
23. Some multiple story units may require private water distribution pumps to insure minimum operating pressures are maintained for buildings over two stories.

### **Transportation**

24. A traffic analysis has been provided to the City, based on review of this study by the City and in negotiations with the Developer, the City drafted a letter of understanding regarding improvements of Highway 70 and the US 70/US 64 Intersection. These were agreed to by the developer, see attached letter dated January 16, 2026.
25. A ROW dedication of 57' will be required on US 70. An additional lane may be required on one or both sides of US 70 if the traffic study indicates a need for additional capacity in order to maintain an acceptable level of service (LOS), from US 64 and the north property line of this development.
26. All necessary pedestrian and vehicular phases need to be added to the US 70 Traffic Signal to accommodate the additional leg of the intersection, including poles, mast arms, pedestrian signals, signal heads, signs, striping, and all ADA requirements. The Signal should be re-timed to account for expected traffic, but the left and right-turn lanes should be sufficient enough for some stacking, so that US 70 traffic is not frequently stopped during peak traffic times.
27. US 64 Roadwork will need to be agreed upon by Memphis, TDOT, and Bartlett as this portion of the work is within the corporate limits of Memphis. Sidewalks will be required in the right-of-way for ADA accessibility and for use by all users.
28. Memphis will determine the details of the traffic signal at the intersection of US 64 and Van Der Veer, as it will be in their jurisdiction, but TDOT and Bartlett will review and agree as well.
29. The proposed Union Depot Drive will have traffic signals at both intersections with US 70 and US 64. This street shall not be opened to through traffic until these signals are fully installed and operational. Building permits of subsequent phases will not be dependent on the completion of said proposed Union Depot Drive traffic signals, however no certificates of occupancy shall be issued until all proposed traffic signal improvements have been approved and accepted by the City of Memphis and City of Bartlett.

30. Parallel parking is shown on Union Depot Drive. On-street parking should meet the requirements for minimum dimensions. Vehicles should be able to pass through the main drive without being hindered by parked vehicles and should never need to cross over the centerline to go around parked vehicles.
31. ~~The Outline Plan, Section IV, Note D, references on-street parking. No parking, except parallel, will be allowed within public ROW, as conditioned in the June 2025 Special Use Permit Planning Commission.~~
32. The minimum speed limit by ordinance in Bartlett is currently 30 MPH. However, a speed limit of 20 mph was allowed in Union Depot, and the same speed limit will be allowed here. A signage plan will be required.
33. Roads shall be clearly labeled as private or public. Service drives that are set with an inverted crown will need to be private.
34. The Valley Gutter Detail supplied must match the previously approved one used in Union Depot.
35. Signage plans shall be submitted, public signs must meet MUTCD, private signs should also. This includes decorative sign posts. A note shall be added to plans for who is responsible to buy/install/maintain them in the future if they are not our standard.
36. Construction traffic shall be right in-right out and shall use the Hwy 64 entrance.

**Planning Conditions:**

1. The applicant shall identify the specific Landscape Plate locations on the Outline Plan.
2. The proposed Landscape Plate A along the Highway 70 and 64 frontage shall be revised to be twenty feet wide from the right-of-way as the Zoning Ordinance requires and as approved across the street for the original Union Depot RMU PD instead of the proposed ten feet.
3. The applicant must obtain subdivision Construction Plan and Final Plan approval for each phase of the development.
4. The applicant must attach the Outline Plan with each Final Plat for every phase recording.
5. After completing the subdivision applications, the applicant must obtain Site Plan application approvals from the Planning Commission and the Design Review Commission for Phases 2, 3, and 5.
6. The applicant shall be present at the meetings in order to make decisions to any changes that may be suggested by the Planning Commission.

Director Taylor noted that Engineering Condition #31 should be removed.

Chairman Kaiser asked if the applicant is present.

Roy Lamica, EFI Global, stepped forward.

Mr. Lamica stated that he is in agreement with comments and conditions of staff.

**Don Conway made a motion to approve the Construction Plan for Union Depot 1<sup>st</sup> Addition with comments and conditions in the staff report, and the removal of Engineering Condition #31. James Reid seconded the motion. Roll Call Vote: All members present voted Yes. Motion carries.**

- 8) Please show stream buffer.

**Stormwater:**

- 9) An updated HECRAS hydraulic drainage study shall be submitted with the Phase 2 submittal to the Engineering Department for review of the existing blue line stream conditions and Flood Plain, and to ensure that adequate detention is provided. Revised detention calculations will be required at that time.
- 10) In accordance with the Bartlett Stormwater Ordinance, the Blue line stream passing through the Site to the northeast requires a 90' buffer (160 acres) on both sides of the stream. This has been reduced, as outlined below, based on the results of the preliminary HECRAS Study. Proposed Buildings shall be constructed outside of the HECRAS 100 Year Flood Elevation and least 10' off of a 30' Minimum Stream Buffer that is provided over the entire site. Allowance for a narrower stream buffer in certain areas may be considered but only as an exception, not as the rule, and only in areas where buildings are not proposed.
- 11) This Site may require a Sedimentation basin, per TDEC requirements, during construction.
- 12) Minimum finished floor elevations shall be set for lots with close proximity to the stream, as follows:

- a. For Residential homes, Town homes, and Apartments, Finished Floor Elevations shall be 30" above the 100 Year Flood Plain. This is in accordance with the Bartlett Zoning Ordinance - Page A-VI-133 Paragraph B1.
  - b. For Non-residential construction such as Commercial and Mixed Use, (where commercial is on the first floor.) Finished Floor Elevations shall be 18" above the 100 Year Flood Plain. This is in accordance with the Bartlett Zoning Ordinance - Page A-VI-134 Paragraph 2.
- 13) An ARAP Permit may be required by TDEC where the proposed road and drainage outfalls necessitate stream modifications.
- 14) Please provide a (Drainage Narrative) written summary of the existing site drainage patterns (including pre-construction Q25 to each outfall) and how grading will or will not impact it. The Drainage Narrative should include a discussion on impact to adjacent properties, how storm water from the new construction will drain (including post-construction Q25 to each outfall), discuss any planned detention, and show the capacity of the (existing) receiving drainage pipe under Hwy 64.

#### **Erosion Control Plan Stage 1, Stage 2 and Stage 3:**

- 15) During construction, extra care will be needed to ensure that silt is not tracked into Hwy 70 or Hwy 64.
- 16) Show and label Flowline, Top of Bank, and Stream Buffers for the stream running through the site.
- 17) Please show the TDEC classification of the receiving stream and the contributing drainage area to outfall(s).

#### **Sewer**

- 18) Sewer connections on existing mains shall show size and capacity of downstream gravity lines for accurate capacity calculations within lines. Sewer design shall meet the requirements of both Bartlett and Memphis or provide alternatives acceptable to service site adequately.
- 19) Hydraulic sewer calculations should be sent to the City of Memphis to receive a letter of availability. A copy of this letter should be sent to the City of Bartlett Engineering Department.
- 20) Regarding the existing 10" sewer line on the property, the Developer may have to remediate/repair/replace sections of this sewer line to accommodate the proposed sewer flows from the development.

#### **Water**

- 21) The Developer shall provide building material and construction types to Fire Marshall so an accurate determination of Fire Flow requirements can be made.
- 22) Depending on finished floor elevations and number of stories, fire flows may be challenging on this site. A 12" extension may be needed through the site as well, connecting the existing 12" on US 70 to the existing 12" on US 64. Because of this:
- a. The Developer may have to bore across HWY 70 for water extension. A TDOT permit will be required.
  - b. The Developer may have to bore across HWY 64 for water extension. A TDOT permit will be required and possible lane closure. (Water main is located in middle of sidewalk).
  - c. The Developer may have to extend 12" water across portions HWY 64 frontage.
- 23) Some multiple story units may require private water distribution pumps to insure minimum operating pressures are maintained for buildings over two stories.

**Transportation:**

- 24) A traffic analysis has been provided to the City, based on review of this study by the City and in negotiations with the Developer, the City drafted a letter of understanding regarding improvements of Highway 70 and the US 70/US 64 Intersection. These were agreed to by the developer, see attached letter dated January 16, 2026.
- 25) A ROW dedication of 57' will be required on US 70. An additional lane may be required on one or both sides of US 70 if the traffic study indicates a need for additional capacity in order to maintain an acceptable level of service (LOS), from US 64 and the north property line of this development.
- 26) All necessary pedestrian and vehicular phases need to be added to the US 70 Traffic Signal to accommodate the additional leg of the intersection, including poles, mast arms, pedestrian signals, signal heads, signs, striping, and all ADA requirements. The Signal should be re-timed to account for expected traffic, but the left and right-turn lanes should be sufficient enough for some stacking, so that US 70 traffic is not frequently stopped during peak traffic times.
- 27) US 64 Roadwork will need to be agreed upon by Memphis, TDOT, and Bartlett as this portion of the work is within the corporate limits of Memphis. Sidewalks will be required in the right-of-way for ADA accessibility and for use by all users.

- 28) Memphis will determine the details of the traffic signal at the intersection of US 64 and Van Der Veer, as it will be in their jurisdiction, but TDOT and Bartlett will review and agree as well.
- 29) The proposed Union Depot Drive will have traffic signals at both intersections with US 70 and US 64. This street shall not be opened to through traffic until these signals are fully installed and operational. Building permits of subsequent phases will not be dependent on the completion of said proposed Union Depot Drive traffic signals, however no certificates of occupancy shall be issued until all proposed traffic signal improvements have been approved and accepted by the City of Memphis and City of Bartlett.
- 30) Parallel parking is shown on Union Depot Drive. On-street parking should meet the requirements for minimum dimensions. Vehicles should be able to pass through the main drive without being hindered by parked vehicles and should never need to cross over the centerline to go around parked vehicles.
- ~~31) The Outline Plan, Section IV, Note D, references on-street parking. No parking, except parallel, will be allowed within public ROW, as conditioned in the June 2025 Special Use Permit Planning Commission.~~
- 32) The minimum speed limit by ordinance in Bartlett is currently 30 MPH. However, a speed limit of 20 mph was allowed in Union Depot, and the same speed limit will be allowed here. A signage plan will be required.
- 33) Roads shall be clearly labeled as private or public. Service drives that are set with an inverted crown will need to be private.
- 34) The Valley Gutter Detail supplied must match the previously approved one used in Union Depot.
- 35) Signage plans shall be submitted, public signs must meet MUTCD, private signs should also. This includes decorative sign posts. A note shall be added to plans for who is responsible to buy/install/maintain them in the future if they are not our standard.
- 36) Construction traffic shall be right in-right out and shall use the Hwy 64 entrance.

#### **Planning Conditions:**

1. The applicant shall identify the specific Landscape Plate locations on the Outline Plan.
2. The proposed Landscape Plate A along the Highway 70 and 64 frontage shall be revised to be twenty feet wide from the right-of-way as the Zoning Ordinance requires and as approved across the street for the original Union Depot RMU PD instead of the proposed ten feet.
3. The applicant must obtain subdivision Construction Plan and Final Plan approval for each phase of the development.

4. The applicant must attach the Outline Plan with each Final Plat for every phase recording.
5. After completing the subdivision applications, the applicant must obtain Site Plan application approvals from the Planning Commission and the Design Review Commission for Phases 2, 3, and 5.
6. The applicant shall be present at the meetings in order to make decisions to any changes that may be suggested by the Planning Commission.

Director Taylor noted that Engineering Condition #31 should be removed.

Chairman Kaiser asked if the applicant is present.

*Roy Lamica, EFI Global, stepped forward.*

Mr. Lamica stated that he is in agreement with comments and conditions of staff.

***James Reid made a motion to approve the Final Plan for Union Depot 1<sup>st</sup> Addition with comments and conditions in the staff report, and the removal of Engineering Condition #31. Randy Jowers seconded the motion. Roll Call Vote: All members present voted Yes. Motion carries.***

RE: Community Enhancement Grant Project Summary #2

Dear Commissioner Wright,

I am providing a summary of the proposed project associated with the Community Enhancement Grant for your review. This initiative focuses on upgrading the Bartlett Police Department's special equipment lot to a durable concrete-and-asphalt surface, enhancing operational readiness, public safety, and infrastructure reliability. We sincerely appreciate your continued efforts to support both the community and the City of Bartlett through initiatives such as this. Thank you for your time and consideration as you review this information for potential funding.

Respectfully,

*Christopher M. Golden*

Chris Golden, Deputy Chief  
Bartlett Police Department

### **Project Summary:**

The City of Bartlett is committed to enhancing citizen safety, strengthening public safety infrastructure, and improving operational readiness—particularly during emergencies and severe weather events. To support these priorities, the City seeks funding to upgrade the Police Department's special equipment lot from its current gravel-and-dirt surface to a durable concrete-and-asphalt foundation.

This lot serves as a critical staging and storage area for essential public safety resources; however, its current condition presents ongoing operational challenges. The uneven gravel and dirt surface creates mud in wet conditions and dust in dry periods, limiting accessibility and slowing the safe, efficient deployment of equipment. These conditions can hinder response times and increase wear and tear on valuable assets.

The lot houses a wide range of specialized equipment vital to community safety, including a mobile command trailer, portable red light trailer, portable stop signs, intersection backup generators, and traffic message boards. These resources play a critical role in managing emergencies, directing traffic, and maintaining order during large-scale incidents and community events. Ensuring these assets can be accessed and deployed quickly and reliably is essential to protecting lives and property.

To address these challenges, professional contractors recommended performing minor dirt work, soil cement work, and drive apron improvements to ensure proper water runoff and overall ground stability. These measures will help prevent water accumulation and surface deterioration over time. The contractors also recommended installing a concrete slab beneath the Pole Barn to provide the necessary stability to support the Mobile Command Trailer's weight. Following this, the contractors advised paving the entire lot with a 2-inch binder layer and a 1½-inch surface layer to provide a durable, long-lasting driving surface. The additional binder layer is specifically designed to support routine traffic from heavy equipment, wrecker services, and the Mobile Command Trailer, ensuring the lot remains reliable under frequent, heavy use.

Upgrading the lot to a concrete-and-asphalt surface will provide a stable, all-weather foundation capable of supporting heavy vehicles and equipment, enabling smooth and efficient movement while reducing the risk of vehicles becoming stuck or damaged. This improvement is especially critical during adverse weather events, when emergency response needs are highest, and current lot conditions are at their worst, ensuring first responders can access and deploy equipment without delay. Additionally, the upgrade will enhance personnel safety by reducing the risk of slips, trips, falls, and equipment-related accidents, allowing staff to focus on rapid, effective emergency responses.

This project represents a practical and impactful investment in public safety infrastructure. By transforming the equipment lot into a dependable, all-weather asset, the City of Bartlett will improve response times, enhance operational efficiency, and strengthen overall readiness during emergencies.

### **Program/Project Area:**

38133, 38134, 38135, 38002

**Total Organization Budget (current year):**

\$23,987,150

**Total Project/Program Budget:**

\$215,000

**Which of the following items would your funds contribute to?**

Infrastructure, Public Safety

**How you will spend the funds if a grant is approved:**

If awarded, grant funds will be used to reconstruct the Police Department's special equipment lot by converting the existing gravel-and-dirt surface into a durable concrete-and-asphalt foundation.

This project will include:

- Site preparation, grading, and minor dirt and soil cement work to stabilize the base and ensure proper water runoff
- Installation of a concrete slab beneath the Pole Barn to support heavy equipment, including the Mobile Command Trailer
- Paving the lot with a 2-inch binder layer and a 1½-inch surface layer to create a long-lasting, durable driving surface capable of handling routine heavy traffic

The upgraded lot will provide a stable, all-weather environment for staging and deploying critical public safety assets, improving response times, enhancing operational efficiency, reducing equipment wear, and ensuring safe working conditions for personnel.

**What is your organization's mission statement?**

"Our mission, in partnership with the citizens of the community, is to protect lives and property, ensure public safety, and improve the quality of life by maintaining order, preventing hazards, and responding effectively to emergencies."

**Briefly explain why your agency is requesting this grant and how it will benefit the general welfare of residents in Shelby County, TN:**

The City of Bartlett is requesting this grant to address a critical infrastructure need that directly impacts public safety and emergency response capabilities. The current gravel-and-dirt surface of the Police Department's equipment lot limits the ability to safely and efficiently deploy essential resources during emergencies.

By upgrading the lot to a durable, concrete-and-asphalt surface—following the recommendations of professional contractors—the City will ensure that critical equipment, including mobile command and traffic management trailers, can be accessed and mobilized without delay. This improvement will enhance response times, increase reliability during adverse weather, reduce vehicle and equipment wear, and support the effective management of emergencies and large-scale incidents.

Ultimately, this project will strengthen the City's ability to protect lives and property, improve operational readiness, and enhance the overall safety and well-being of residents throughout Shelby County.

**Current programs and accomplishments:**

The City of Bartlett has a strong track record of prioritizing public safety, infrastructure maintenance, and emergency preparedness. Through coordinated efforts between public safety and public works departments, the City continues to identify and address operational challenges that impact service delivery.

Ongoing evaluations of emergency response capabilities have highlighted the importance of reliable infrastructure to support the rapid deployment of equipment and personnel. This project builds upon those efforts by addressing a key operational limitation and enhancing the City's readiness during critical incidents.

**Please explain the need or problem you are seeking to address with this grant:**

The current gravel-and-dirt surface of the Police Department's special equipment lot presents significant operational and safety challenges. During wet conditions, the lot becomes muddy and unstable, making it difficult for vehicles and trailers to move efficiently. In dry conditions, dust and loose gravel create visibility and maintenance concerns.

These conditions can delay response times, increase the risk of accidents, and create unsafe working conditions for personnel. Additionally, the lack of a stable surface contributes to increased wear and tear on valuable equipment.

The City of Bartlett seeks to address this issue by upgrading the lot to a concrete-and-asphalt surface, including base stabilization, a concrete slab under the Pole Barn, and a durable layered pavement structure, as recommended by professional contractors. This improvement will enhance safety, increase efficiency, and ensure reliable access to essential equipment during emergencies.

### ▼ Full Application

#### Project Summary:

The City of Bartlett is committed to enhancing citizen safety, strengthening public safety infrastructure, and improving operational readiness—particularly during emergencies and severe weather events. To support these priorities, the City seeks funding to upgrade the Police Department's special equipment lot from its current gravel-and-dirt surface to a durable concrete-and-asphalt foundation.

This lot serves as a critical staging and storage area for essential public safety resources; however, its current condition presents ongoing operational challenges. The uneven gravel and dirt surface creates mud in wet conditions and dust in dry periods, limiting accessibility and slowing the safe, efficient deployment of equipment. These conditions can hinder response times and increase wear and tear on valuable assets.

The lot houses a wide range of specialized equipment vital to community safety, including a mobile command trailer, portable red light trailer, portable stop signs, intersection backup generators, and traffic message boards. These resources play a critical role in managing emergencies, directing traffic, and maintaining order during large-scale incidents and community events. Ensuring these assets can be accessed and deployed quickly and reliably is essential to protecting lives and property.

To address these challenges, professional contractors recommended performing minor dirt work, soil cement work, and drive apron improvements to ensure proper water runoff and overall ground stability. These measures will help prevent water accumulation and surface deterioration over time. The contractors also recommended installing a concrete slab beneath the Pole Barn to provide the necessary stability to support the Mobile Command Trailer's weight. Following this, the contractors advised paving the entire lot with a 2-inch binder layer and a 1½-inch surface layer to provide a durable, long-lasting driving surface. The additional binder layer is specifically designed to support routine traffic from heavy equipment, wrecker services, and the Mobile Command Trailer, ensuring the lot remains reliable under frequent, heavy use.

Upgrading the lot to a concrete-and-asphalt surface will provide a stable, all-weather foundation capable of supporting heavy vehicles and equipment, enabling smooth and efficient movement while reducing the risk of vehicles becoming stuck or damaged. This improvement is especially critical during adverse weather events, when emergency response needs are highest, and current lot conditions are at their worst, ensuring first responders can access and deploy equipment without delay. Additionally, the upgrade will enhance personnel safety by reducing the risk of slips, trips, falls, and equipment-related accidents, allowing staff to focus on rapid, effective emergency responses.

This project represents a practical and impactful investment in public safety infrastructure. By transforming the equipment lot into a dependable, all-weather asset, the City of Bartlett will improve response times, enhance operational efficiency, and strengthen overall readiness during emergencies.

**Total Organization Budget (current year):** \$23,987,150.00  
**Total Project/Program Budget:** \$215,000.00  
**Which of the following items would your funds contribute to?** Renovation & Maintenance

How you will spend the funds if a grant is approved?

If awarded, grant funds will be used to reconstruct the Police Department's special equipment lot by converting the existing gravel-and-dirt surface into a durable concrete-and-asphalt foundation.

This project will include:

- Site preparation, grading, and minor dirt and soil cement work to stabilize the base and ensure proper water runoff
- Installation of a concrete slab beneath the Pole Barn to support heavy equipment, including the Mobile Command Trailer

- Paving the lot with a 2-inch binder layer and a 1½-inch surface layer to create a long-lasting, durable driving surface capable of handling routine heavy traffic
- The upgraded lot will provide a stable, all-weather environment for staging and deploying critical public safety assets, improving response times, enhancing operational efficiency, reducing equipment wear, and ensuring safe working conditions for personnel.

**What is your organization's mission statement?**

Our mission, in partnership with the citizens of the community, is to protect lives and property, ensure public safety, and improve the quality of life by maintaining order, preventing hazards, and responding effectively to emergencies.

**Briefly explain why your agency is requesting this grant and how it will benefit the general welfare of residents in Shelby County, TN:**

The City of Bartlett is requesting this grant to address a critical infrastructure need that directly impacts public safety and emergency response capabilities. The current gravel-and-dirt surface of the Police Department's equipment lot limits the ability to safely and efficiently deploy essential resources during emergencies. By upgrading the lot to a durable, concrete-and-asphalt surface—following the recommendations of professional contractors—the City will ensure that critical equipment, including mobile command and traffic management trailers, can be accessed and mobilized without delay. This improvement will enhance response times, increase reliability during adverse weather, reduce vehicle and equipment wear, and support the effective management of emergencies and large-scale incidents. Ultimately, this project will strengthen the City's ability to protect lives and property, improve operational readiness, and enhance the overall safety and well-being of residents throughout Shelby County.

**Current programs and accomplishments. Please emphasize the achievements of the recent past:**

The City of Bartlett has a strong track record of prioritizing public safety, infrastructure maintenance, and emergency preparedness. Through coordinated efforts between public safety and public works departments, the City continues to identify and address operational challenges that impact service delivery. Ongoing evaluations of emergency response capabilities have highlighted the importance of reliable infrastructure to support the rapid deployment of equipment and personnel. This project builds upon those efforts by addressing a key operational limitation and enhancing the City's readiness during critical incidents.

**Please explain the need or problem you are seeking to address with this grant:**

The current gravel-and-dirt surface of the Police Department's special equipment lot presents significant operational and safety challenges. During wet conditions, the lot becomes muddy and unstable, making it difficult for vehicles and trailers to move efficiently. In dry conditions, dust and loose gravel create visibility and maintenance concerns.

These conditions can delay response times, increase the risk of accidents, and create unsafe working conditions for personnel. Additionally, the lack of a stable surface contributes to increased wear and tear on valuable equipment.

The City of Bartlett seeks to address this issue by upgrading the lot to a concrete-and-asphalt surface, including base stabilization, a concrete slab under the Pole Barn, and a durable layered pavement structure, as recommended by professional contractors. This improvement will enhance safety, increase efficiency, and ensure reliable access to essential equipment during emergencies.
