4 Contract for installation of two-way radio communications system for public safety operations. (Dick Phebus, Director of Finance)

The Board held a work session prior to this meeting to discuss the two-way public radio system project. Both vendors, Motorola and Harris/AMK, were present.

Mayor McDonald asked Fire Chief Terry Wiggins and Police Chief Gary Rikard to explain why Harris/AMK was chosen to install the new two-way public radio system. A team of high ranking employees in the Fire, Police, and Public Works Departments reviewed both proposals. The Harris/AMK proposal scored higher than Motorola's.

Chief Wiggins said he reviewed each proposal page-by-page. He said with the new loop system, if a radio tower stops working, the city will still have 90 percent coverage. Since portable radios are a must for the Fire Department, Chief Wiggins is comfortable with Harris as the radio provider.

Chief Rikard said he agrees with Chief Wiggins. Harris will provide the best system for the safety of our police officers.

Alderman Young said the Aldermen should follow the recommendations of the professionals that have evaluated both systems. Alderman Sedgwick echoed this sentiment.

Alderman Simmons said after an hour-and-a-half work session, he doesn't have enough information to make a decision.

Alderman Elliott said that any system is fallible, but believes having two radio towers is worth every penny to protect our citizens and employees.

Alderman Pleasant said he still has questions and reservations, but will trust the staff's recommendation.

RESULT:	APPROVED [5 TO 1]
MOVER:	Emily Elliott, Alderman
SECONDER:	Jack Young, Vice Mayor
AYES:	Pleasant, Elliott, Parsons, Young, Sedgwick
NAYS:	Simmons

OPEN DISCUSSION

Alderman Elliott announced plans to build a First Responders Monument in Bartlett. No taxpayer money will go toward this project. She asked that citizens purchase a t-shirt or make a donation through the project's Facebook page.

SITE PLAN, GRADING, AND EROSION CONTROL CONTRACT

THIS AGREEMENT, made and executed this _____ day of _____, _____ between the CITY OF BARTLETT, SHELBY COUNTY, TENNESSEE, hereinafter referred to as the CITY and **KRISPY KREME DOUGHNUT CORPORATION** and **THE HUDSON COMPANY OF TENNESSEE** hereinafter referred to as the DEVELOPER.

WITNESSETH:

WHEREAS, the CITY PLANNING COMMISSION has by resolution of January 4, 2016, approved the Site Plan, Grading, and Erosion Control Plans for **Krispy Kreme Doughnuts, 6072 Stage Road** and established certain conditions for approval of this Site Plan, Grading, and Erosion Control Contract by the CITY BOARD OF MAYOR AND ALDERMEN; and

WHEREAS, the CITY and the DEVELOPER by the terms of this contract desire to specify those detailed costs, division of responsibilities and maintenance and other conditions in addition to the Subdivision Regulations and the Site Plan, Grading, and Erosion Control Plans heretofore approved, according to Law by the CITY PLANNING COMMISSION, said additional terms not to be considered as a variance from or modification to regulations, plans or plat, as approved on the date of execution; and

WHEREAS, this Site Plan, Grading, and Erosion Control Contract is entered into by the CITY at the insistence of the DEVELOPER upon the understanding that the DEVELOPER shall remain fully responsible for specific compliance with the requirements of the Subdivision Regulations, the Technical Specifications of the CITY, and the Site Plan, Grading, and Erosion Control Plan, duly approved by the CITY PLANNING COMMISSION subject to review and recommendation of the CITY ENGINEER, and

NOW, THEREFORE, in consideration of the promises and mutual covenants of the parties herein contained, and other considerations herein recited, it is agreed and understood as follows:

I

GENERAL PROVISIONS

1. That the DEVELOPER shall at its expense provide all improvements and installations to be constructed as set forth herein and on the approved Site Plan, Grading, and Erosion Control Plans, including construction of all off-site improvements and erosion control systems (pertaining to this development).
2. That the DEVELOPER shall pay the expenses of engineering inspection by the CITY ENGINEER, however, that the DEVELOPER shall remain fully responsible for construction to the approved design and quality control, and that the CITY ENGINEER is vested with the right of periodic inspections, final approval and stop work order as a measure of secondary or subsequent enforcement.
3. That the CITY in its proprietary function does not purport to specify the development layout nor the choice of available land uses; nor does the CITY PLANNER design, supervise, nor certify the adequacy, structural integrity, or capacity of improvements or installations within or without the limits of the development; neither is the CITY ENGINEER vested with any authority or responsibility for the design of any improvements or installations within or without the limits of the development; nor is the CITY ENGINEER required to determine the structural integrity, capacity, elevation, location, type or adequacy of any improvements or installations.
4. That in providing technical assistance, planning and review of the proposed grading and erosion control measures the CITY seeks to enforce its minimal governmental standards and does not

relieve or accept any of the DEVELOPER'S liability and responsibility for proper design, construction and installation of improvements within or without the limits of the site plan.

5. That subject to the warranty provisions herein, after completion of the improvements, subject to final inspection and written approval of the CITY ENGINEER, the DEVELOPER does thereafter accept responsibility for all the maintenance of all improvements.

6. That the DEVELOPER shall haul all scrap building materials, debris, rubbish, and other de-gradable materials to a permitted landfill, and not bury any such materials within the limits of said site plan (except if they are permitted to burn by Shelby County Health Department and the Bartlett Fire Department).

7. That if a bond has been executed to secure the value of the improvements to be constructed and installed under this contract and said bond, due to inflation and/or rising costs, is inadequate to secure the cost of said improvements when an extension of the contract period is sought, the DEVELOPER shall provide the additional security to bring the bond amount in line with current cost projections by the CITY ENGINEER and approved by the CITY BOARD OF MAYOR AND ALDERMEN.

8. That the CITY and any of its agencies will not unreasonably withhold approval of time extensions where the DEVELOPER has provided the required notice to the CITY ENGINEER and such additional security as may be deemed necessary.

9. That the DEVELOPER understands that failure to follow this time extension procedure constitutes a breach of contract and places the DEVELOPER in violation of the Subdivision Regulations and subject to a declaration of default.

10. That the DEVELOPER will not transfer the property on which this subdivision is to be located without first providing the CITY ENGINEER with prior notice of when and to whom transfer is to be made. If the transferee intends to develop this site plan in accordance with the approved

Master Plan, the DEVELOPER shall provide the CITY ENGINEER and the CITY ATTORNEY

an Assumption Agreement by which the transferee agrees to perform and complete all the requirements of this contract and to provide the surety needed to secure such performance. Said agreement shall be subject to approval of the CITY BOARD OF MAYOR AND ALDERMEN.

11. That the DEVELOPER understands that transfer of said property without providing the notice of transfer and Assumption Agreement as required herein shall be a breach of contract and places the DEVELOPER in violation of the Subdivision Regulations and subject to a declaration of default.

12. That the DEVELOPER shall comply with all applicable Federal, State, and local laws, and it shall be the DEVELOPER'S responsibility to furnish proof of said compliance upon demand.

13. That should the DEVELOPER default in any part of this contract and it becomes necessary to engage an attorney to file necessary legal action to enforce the provisions of this contract or sue for any sums of money due and owing or liability arising incident to this contract, the DEVELOPER shall pay to the CITY reasonable attorney's fees.

14. That the Developer shall furnish, on demand of the CITY ATTORNEY, satisfactory evidence that the DEVELOPER has the lawful right to enter into this contract for the purpose herein contained.

II

FIXED IMPROVEMENTS

1. The construction of all required improvements by the DEVELOPER including but not limited to the sediment ponds, silt fence, rip-rap check dams, erosion control blankets, storm drain systems, sidewalk, driveway apron, landscape screen, and other related items, shall be in accordance with the subdivision regulations and specifications of the CITY OF BARTLETT, which are incorporated by reference herein and said fixed improvements required approval and acceptance by the CITY OF BARTLETT. Said plans shall bear the signature of approval by the CITY ENGINEER before construction may commence. The DEVELOPER will pay the expenses

of engineering inspection by the CITY ENGINEER, the DEVELOPER shall remain primarily responsible for construction to approve design and quality control and the CITY ENGINEER is vested with the right of periodic inspections, final approval and stop work order as a measure of secondary or subsequent enforcement.

III

SEDIMENT AND DEBRIS

1. The DEVELOPER will hold the CITY OF BARTLETT and the CITY ENGINEER harmless and defend all claims, judgments and demands of all persons for damage caused by the deposit of more sediment or debris from drainage flowing from said site plan. Further, the DEVELOPER shall bear the expense of erosion and sediment control and dust abatement before, during and after construction during the warranty period.
2. That the DEVELOPER shall provide necessary erosion control in accordance with the CITY Subdivision Regulations and Technical Specifications and TDEC approval. All freshly excavated and embankment areas, not covered with satisfactory vegetation, shall be fertilized, mulched and seeded and/or sprigged and/or sodded as required by the CITY ENGINEER to prevent erosion. In event it is determined by the CITY ENGINEER that the necessary erosion control is not being provided by the DEVELOPER, the CITY ENGINEER shall officially notify the DEVELOPER of the problem. If the DEVELOPER fails to provide satisfactory erosion control within fifteen (15) days after notice, then the CITY shall make all necessary improvements to eliminate the erosion problem, documenting all expenses incurred performing the work. Prior to releasing any bonds or other securities covering said subdivision, all expenses incurred by the CITY shall be paid in full by the DEVELOPER.
3. That the DEVELOPER shall maintain work sites within and without the subdivision in a

manner which will prevent increased sedimentation, debris and pollution from drainage flowing from said site. In the event of a stop work order issued by the CITY ENGINEER, the DEVELOPER shall be permitted a reasonable time to continue work required to comply with this Section. Further, the DEVELOPER shall bear the expense of erosion, sediment, and insect vector control before, during and after construction, and until termination of the warranty period. It is noted that the warranty period shall run for an indefinite period until such time as the punch list is complete, or warranty period ends; whichever is later.

IV

DRAINAGE DESIGN RESPONSIBILITIES

1. That the DEVELOPER shall construct and install all erosion control measures, including swales, ditches, sedimentation ponds and etc. Said erosion control measures system shall be designed such that the amount and rate of water from all sources leaving the subdivision after full building development shall not be significantly different after than before said development unless approved by the CITY ENGINEER upon certification of a Professional Engineer registered in the State of Tennessee that the Drainage system design and improvements are sufficient to accept surface and ground water reasonably expected to flow onto the subdivision and discharge all waters reasonably expected to flow from the property so as not to damage or flood properties nor to increase the established base flood elevation of the upstream or downstream portion of Flood Way within or without the site. Further, that the adequacy of the drainage shall in all cases be certified by the DEVELOPER'S engineer by his signature and seal affixed upon the Site Plan, Grading, and Erosion Control Plans of said property prior to the final approval by the CITY PLANNING COMMISSION.
2. That in any development which alters or revises the Flood Plain or Flood Way shown on the Flood Hazard Boundary Map issued by the Federal Emergency Management Region Office, the

DEVELOPER shall provide to the CITY FLOOD ADMINISTRATOR a Development Permit issued by the Federal Insurance Administration Regional Office accepting said alteration or revision of the Flood Plain or Flood Way. Further, until said Development Permit is provided the DEVELOPER shall not proceed with any work affecting the Flood Plain or Flood Way.

3. It is understood and agreed that the CITY OF BARTLETT in its proprietary function does not purport to specify the development layout nor the choice of available land uses; nor does the CITY OF BARTLETT design, construct, supervise nor certify the adequacy of the drainage improvements.

4. Neither is the CITY ENGINEER vested with any responsibility for the design of drainage improvements nor is he required to determine drainage capacities, survey elevation, cross check adequacy nor specify the type and locations of drainage improvements; and in providing technical assistance, planning and review the CITY OF BARTLETT does not commit itself to the construction, improvements or modification of the drainage system within or without the development.

5. Rather it is the responsibility of the DEVELOPER to properly anticipate, survey, design and construct all grading and erosion control improvements so that the development will not increase, alter or affect the flow of surface waters or channelized waters from or onto any property so as to damage or flood any property nor contribute to the same.

6. In providing technical assistance, planning and review the CITY OF BARTLETT seeks to enforce its minimal governmental standards and does not relieve or accept any of the Developers liability and responsibility to properly design and construct the site plan, grading, and erosion control measures.

7. The DEVELOPER further agrees to hold harmless the CITY OF BARTLETT and the CITY ENGINEER from any loss or damage from any claim, cause of action or liability resulting in

whole or part from the design, construction and/or installation of the grading and erosion control measures including reasonable costs, litigation expenses and attorneys fees for defense of same.

8. As long as the City of Bartlett holds security, be it bond, letter of credit or otherwise, the City of Bartlett reserves the right to use said security for completion or repair of the erosion control measures during the warranty period of the development or for routine maintenance not performed by the DEVELOPER.

V

WARRANTY PROVISIONS

1. That neither the final certificate of payment nor any provision of this contract or its incorporated documents shall constitute an approval or acceptance of any work not performed in accordance with the contract and its incorporated documents, nor relieve the DEVELOPER of liability with respect to any express warranty or responsibility for faulty materials or workmanship.
2. That the DEVELOPER shall remedy any defects in work and pay for any damage to other work resulting therefrom which shall appear within a period of one (1) year from the date of final written approval and acceptance. The CITY shall give notice of observed defects with reasonable promptness. Further, this Construction Warranty does not effect but is in addition to the rights and liabilities assessed herein unless a longer period is specified.
3. That throughout the warranty period beginning at final acceptance the DEVELOPER shall provide a bond or other surety securing such warranty for all improvements in a form, amount and with terms acceptable to the CITY BOARD OF MAYOR AND ALDERMEN. The warranty period is to extend to a minimum of one (1) year after the City's final acceptance.

4. That the DEVELOPER shall complete all improvements in this contract within 360 consecutive calendar days from the date hereof; however, if due to unforeseen circumstances, the DEVELOPER is unable to complete said work within the times specified, but desires to complete said contract to the satisfaction of the CITY, the DEVELOPER will submit a written request for extension of the contract period to the CITY ENGINEER at least sixty (60) days prior to the expiration date for such completion, but in no case shall such date exceed one (1) calendar year from the completion date specified in any Performance Bond, provided said bond can be extended for the additional period.

VI

BONDING REQUIREMENTS

That prior to proceeding with any site preparation, construction or installation of improvements the DEVELOPER shall deposit with the CITY all required fees and assessments for said improvements in a form approved by the CITY BOARD OF MAYOR AND ALDERMEN. Further, prior to proceeding as stated herein, the DEVELOPER shall deliver to the CITY a Certificate of Deposit, Letter of Credit, or cash bond in the amount identified on Page 12 of said contract and with terms stated in the CITY PLANNING COMMISSION RESOLUTION dated July 8, 1967 and amended to September 5, 1989. Further, prior to proceeding as stated herein, the DEVELOPER shall deliver to the City an approved N.O.I. (Notice of Intent), and SWPPP (Storm Water Pollution Prevention Plan) approved by TDEC (Tennessee Department of Environment and Conservation) as required by the Storm Water Phase 2 requirements.

VII**HOLD HARMLESS**

That the DEVELOPER shall hold harmless the CITY and the CITY ENGINEER from any claim, cause of action or liability resulting in whole or in part from the design, construction or installation of the improvements within and without the limits of the subdivision, including reasonable costs, litigation expenses and attorney's fees for defense of same.

SPECIAL CONDITIONS:

- 1 A TDOT Utility and Right of Way Permit must be obtained to cover the work in the right of way of Stage Road. This work will consist of removing the two existing driveways, installation of new driveway, installation of a new water service tap, installation of sewer line and sewer manhole, and the installation of the new sidewalk.
- 2 The plat shall be recorded to consolidate the two existing parcels.
- 3 Developer shall coordinate the removal and relocation of the existing pedestal street light and shall be responsible for all associated costs.

RE: Krispy Kreme Doughnuts Site Plan Contract
REVISED

This contract was approved by the Board on February 23, 2016.

After some discussion with the KRISPY KREME DOUGHNUT CORPORATION they have requested that their general contractor, THE HUDSON COMPANY OF TENNESSEE, be allowed to submit the surety for this development and to pay the associated fees in the contract. In order to do this is a way to prevent any issues in the future concerning the surety for this development this revision will show both the KRISPY KREME DOUGHNUT CORPORATION and THE HUDSON COMPANY OF TENNESSEE as the Developer for this site.

The fees and the contract amount are unchanged.

Engineering recommends approval of this revision to the contract.

Bid for Landscape Screen Trees for the Fire Training Facility.

The Landscape Screen Trees for the Bartlett Fire Training Facility Project was advertised in the *The Daily News* on Thursday, February 4.

The contractors that picked up Bid Documents or who downloaded them from the web site are as follows:

Michael Hatcher & Associates
Greenscape Landscapes, LLC
Echo Systems, Inc.
Greenscape, Inc.
Landscape Services Group, LLC
Owens Construction Services of TN

On February 18, 2016, the City received six bids for the construction of the **Landscape Screen Trees Bartlett Fire Training Facility Project**. The apparent low bidder, Michael Hatcher & Associates, submitted a Total Base Bid of **\$22,813.00**. Based on the bid prices submitted, I recommend awarding this bid based on the Base Bid Price. The bids received have been reviewed by the Consultant/Contract Review Committee, and it concluded that Michael Hatcher & Associates has submitted the lowest and best bid. The Committee recommends the City of Bartlett award this contract to Michael Hatcher & Associates in the **base bid** amount of **\$22,813.00** plus an additional amount of **\$2,000.00** for items that may need to be added during construction for a total not to exceed **\$24,813.00**. Funding is available in Account 311.48311.780.263.

Bidder	Total Base Bid
Michael Hatcher & Associates	\$22,813.00
Greenscape Landscapes, LLC	\$24,965.00 (Disqualified)
Echo Systems, Inc.	\$31,080.24
Greenscape, Inc.	\$32,527.38
Landscape Services Group, LLC	\$39,705.00
Owens Construction Services of TN	\$48,870.00

There were errors in the bids submitted by Echo Systems and Greenscape, Inc, but these did not affect the outcome of the bids. Greenscape, Inc. did not include a 5 percent bid bond and was disqualified. Michael Hatcher & Associated submitted a bid based on 2 more trees than were included in the bid document, however, Michael Hatcher & Associates were still the

lowest and best bid.

A copy of the bid document (plans and bid book) is located in the Alderman's Conference Room for review. A copy of the bid tabulation is located in the Alderman's Conference Room for review.
