Mayor and Board of Aldermen
City of Bartlett
6400 Stage Road
Bartlett, TN 38134

Dear Mayor and Aldermen,

Thank you for considering the attached request for city permits for Saint Francis Hospital-Bartlett. We are planning two special events in celebration of 10 years of service to our community.

The first event will be held on Saturday, May 31, 2014 from 10 a.m. until 2 p.m. Our own employees, their families and the general public will be invited to this free event. We have contracted with Shady Tree Fun Farms to provide a "carnival" atmosphere, including children's rides such as moon walk, bouncy house, slide, train ride, and other games. Rockin' Robin DJ's will provide additional entertainment and giveaways. Richard Birmingham, Smoky Mountain Catering, will offer refreshments for sale to attendees. Mr. Birmingham's certificate from the department of health is pending.

Since our diagnostic imaging center is closed on Saturday, we will use the area outside that building (near Highway 64) for the activities. It should provide ample space for activities and parking. A site plan is enclosed showing four portable toilets. We will also have a first-aid area, staffed by nurses, with appropriate first-aid supplies and water. With your permission, one thirty-foot sign will be placed on Highway 64 twenty-four hours prior to the event. Guardsmark, our contracted security company, will provide security for the event.

It is difficult to estimate how many people will attend the May 31st celebration. However, we have been told to expect as many as 2000 people during the four hour period of time. A rain date is planned for Sunday, June 1st from 2:00 – 6:00 p.m.

The second event will be held on Monday, June 2nd at 2:00 p.m. at the main entrance of the hospital. This will be a program called, "Saint Francis Hospital – Bartlett...Past, Present and Future." Government officials, business leaders, Tenet corporate leadership, physicians and the media will be among those invited. We will have presentation of the colors, pledge of allegiance, the national anthem, and a few short speeches to commemorate our tenth anniversary. Tours of the hospital and a reception will follow inside the building.

Thank you for any feedback you may have concerning our plans. We look forward to each of you being a part of our celebratory weekend.

Sincerely,

A handwritten signature in black ink that reads "Jane Garrett". The signature is written in a cursive, flowing style.

INTRODUCTION: Mr. Ray Flake with Civil Engineering Services is requesting Planning Commission approval of a Final Plan for the Cross Subdivision. The subject property is located at the southwest corner of Germantown Road and Brother Boulevard within the "SC-1" Planned Unit Commercial Zoning District.

BACKGROUND: On November 4, 2013, the Planning Commission approved the Master Plan for the Cross Subdivision with staff conditions.

DISCUSSION: More specifically, the applicant is proposing to subdivide 3.86-acres of land into a two lot commercial subdivision with Lot 1 being 1.5-acres, and Lot 2 being 2.36-acres. Lot 1 will be the future location of a Mapco service station and will have access from Germantown Road and shared access with Lot 2 from Brother Boulevard. Lot 2 will contain a detention pond to service both lots and has no planned future development at this time. The Mapco station will be adjacent to an existing residential neighbor.

Request to continue to next meeting received from applicant.

NEW BUSINESS

Site Plan

2. Culpepper Place Assisted Living, Northwest side of Hwy 70, North of Broadway (Michael Rogers, Fisher & Arnold, Inc.)

INTRODUCTION: Mr. Mike Rodgers with Fisher & Arnold is requesting Planning Commission approval of a Site Plan for the Culpepper Place Assisted Living facility. The subject property is located on the northwest side of Highway 70, north of Broadway Road (backs-up to Cedar Hall).

BACKGROUND: On August 12, 2013, the Planning Commission recommended the approval of the rezoning of the property from "O-R-1" Office to "RS-12" Residential to the Board of Mayor and Aldermen. On September 10, 2013, the Board of Mayor and Aldermen granted the approval of the rezoning of the property.

On August 12, 2013, the Planning Commission recommended the approval of a Special Use Permit (SUP) to the Board of Mayor and Alderman to allow an assisted living facility in the “RS-12” Residential zoning district. On September 10, 2013, the Board of Mayor and Aldermen granted the approval of the SUP.

DISCUSSION: The specific request by the applicant is for the approval of a site plan to construct a 58,744 square foot building and parking lot on 8.85-acres of land. The facility will house 67-units/beds. Other features of the development include a detention area at the southeast corner of the property, and a dumpster area at the southwest corner of the access driveway. Access to the site will be from two curb-cuts/drives from Highway 70 (i.e. a right-in right out, and a full movement access drive). . The specifics of the site plan are as follows:

Site Data	
Site Area:	8.85-acres (385,624 square feet)
Total Required Parking Spaces (based on number of beds):	22
Total Proposed Parking Spaces:	90
Handicap Accessible:	4
Regular:	86
Proposed Building Area:	58,744 square feet
Greenspace/Openspace:	66.46%
Building Height:	Not Provided

Motion was made to approve with conditions of staff.

Engineering Comment:

- 1) Recommend contacting the Cedar Hall Owner to see if they still wish to participate in extending a drive from their property to the Culpepper drive, as proposed at the rear of the building, and add that extension to the drawings as appropriate.

Engineering Conditions:

Plat (not included with submission)

- 1) Show all easements and the additional right of way dedication to 57' from centerline.
- 2) Dedicate a temporary 15' construction easement all along the road frontage for the future Hwy 70 widening project. This shall remain dedicated until the road is fully widened. The property owner can plant the full landscape screen at this time, with the understanding it will be replaced at some point in the future.
- 3) Include the standard plat notes on the first page (digital copy available from Engineering - Mark).

- 4) Include a note that states the specific acreages covered in the fee calculations (sewer and drainage). (should be 8.85 acres)
- 5) Show the Cedar Hall ingress/egress easement if applicable.

Site Plan

- 1) At the rear of the facility, there are two sections of alley that are wider, but with no identifying information other than length (80' and 115'). Provide information identifying their use.
- 2) Identify the largest size of vehicle that will be making deliveries and using the hammerhead section for turning around at the rear.
- 3) A TDOT driveway permit is required for the driveway access onto Hwy 70.
- 4) Full improvements on Hwy 70 are not required, but full dedication to 57' from centerline is required (not 59' as shown).
- 5) The ground sign detail on the Site Plan should be modified to meet the Sign Ordinance and will then need to be submitted separately to DRC for approval.

Grading and Drainage

- 1) Full detention calculations are required for the 2,5,10, and 25 year storms. The limited information of the drawings implies only the 25 year storm has been addressed.
- 2) As designed, the single detention basin is being used to accommodate the approximately $\frac{3}{4}$ of an acre that will be re-routed into this drainage basin. The 'post' detention outflow shall be based only on the original acreage and not include the additional runoff from the separate north basin. That will require the basin to over-detain to achieve this result.
- 3) In view of the irregular shape of the detention basin, an as-built survey shall be required to determine the post-construction storage volumes. This shall be noted on the G&D plan.
- 4) The concrete swale in the detention basin shall be adequately sized for the design flows.
- 5) The pipe at the detention basin outlet structure shall be connected to a drain manhole or junction box which connects directly to the Hwy 70 culvert. Any surface drainage in that area will require a drain inlet as part of the junction box.
- 6) The stormwater runoff from the discharge point from the Cedar Hall site through this property to the detention basin (or bypassing it to the 36" culvert under Hwy 70) shall be either piped or contained in a concrete swale/ditch with a public drainage easement (min 15' wide easement).
- 7) Provide a structure and pipe chart with all design parameters identified and include appropriate columns for as-built information. Also identify which pipes/structures are proposed to be public.

Erosion Control

- 1) Move the construction entrance to the upper (north) driveway location for safety/visibility reasons and in conjunction with the full movement driveway.

- 2) A copy of the SWPPP and NOC will be required prior to the precon.

Utilities

- 1) A TDOT utility permit will be required for all utility work along the HWY 70 right of way.
- 2) Add a note to the Utility Plan that the public water lines are shown for informational purposes only and that the Water Design drawing shall take precedence for all work on public water lines, including extensions.
- 3) Applicant's engineer shall designate on the drawing the required size of the domestic and irrigation water meters and shall indicate whether they will be on one (best) or separate (will experience pressure fluctuations) taps.
- 4) Include the proposed gas and electric routes on this plan.
- 5) Provide an AutoCAD copy of the site plan with a minimum of the G&D and utility overlays included to therndon@cityofbartlett.org [so he can prepare the Water Plan.](mailto:therndon@cityofbartlett.org) Once done, we will know the extent of the water extensions required.
- 6) Add a public/private cleanout on the sanitary sewer service line approximately 5' inside the new property line.

Tree Protection

- 1) The surveyor must also sign the tree protection plan certifying the tree locations are accurate.

Landscape

- 1) The 20' wide landscape buffer between this site and the residential zoned property behind it shall also include the standard fence included in the landscape plate. A typical detail and designation of this buffer shall also be included on the plat.
- 2) Extend the streetscape all the way to the south property line.
- 3) The 5 Cherrybark Oaks in front of the parking lot are being placed too close to the curbs. Each one (a large density tree) should have an available growing area of about 400 SF. Recommend medium density trees in that area including some evergreens, as the future proposed relocated overhead electric line will impact the larger trees resulting in them becoming 'one-sided' when MLGW adds its 'input'.

Contract:

- 1) A subdivision/site plan contract is required and will be prepared by the City of Bartlett after the construction drawings have been reviewed and approved by the Planning Commission, and all Site Plan conditions have been incorporated onto them.

Planning Comments:

- 1) The number of required parking spaces is based on the number of beds (67) in the proposed facility. The number of handicap accessible parking spaces and regular

parking spaces shown on the plans exceed the minimum requirements of the Bartlett parking regulations.

Planning Conditions:

- 1) The proposed sign shown on Sheet 2 cannot be approved at this time. The applicant shall submit a separate sign application(s) for all proposed exterior signage to the Design Review Commission for the approval of signage.
- 2) All building setback lines of delineation shall be added to the site plan.
- 3) The Bartlett Tree and Landscape Ordinance require a minimum 20-foot wide landscape buffer along the lot's frontage on Highway 70. A line delineating the landscape buffer shall be added to the site plan. Also a 20-foot landscape buffer with a fence and brick columns is required along all side and rear property lines that are adjacent to residential land uses and/or zoning.
- 4) The owner/applicant shall be present at the meeting in order to make decisions relative to any changes that may be suggested by the Planning Commission.

3. Election of Officers

- a. Mr. Russ Abernathy is the Chairman for another year.*
- b. Mr. Ron Sandlin is the Vice Chairman for another year.*
